CLASS OF 2021 SENIOR PORTRAIT SAFETY PROTOCOL

Every year our goal at Casson-Foster is to provide seniors with high quality senior portrait imagery and a fun experience. As we all know, this year we need to put in some extra thought and effort to deliver this goal. Ultimately we want each senior to have a great experience during their senior portrait session while keeping everyone involved safe.

OUTDOOR SESSIONS

As senior portraits have evolved over the years, we photograph a vast majority of our senior sessions outdoors at local parks. With that in mind, this is a good start to keeping the photographer and the student safe. Our photographers utilize telephoto lenses during outdoor sessions to incorporate unique telephoto compression into your imagery. What that means to you, is that for the past 10 years, our portrait photographers, Scott, Jesse and Andrew have always been 6 feet away unless they are helping with hair and clothing. In past years, we recommended that each student bring a helper with them to the session. This year, it will be mandatory. Whether it be a parent or sibling, our photographers will need someone there to assist with hair and clothing should adjustments need to be made. This will ensure that we can maintain a safe fun photo session. In terms of the locations, our photographers never work near crowds. This practice will continue to ensure safety as well.

INDOOR SESSIONS

Our studio in Auburn will be opening in July for indoor photography sessions. Many students who have outdoor sessions, opt to also have an indoor session. Some students prefer a more traditional indoor session versus outdoor. In past years we have offered 60 minute sessions and 30 minute sessions, which we will continue to do. This year, whether your senior opts for a 30 minute session or a 60 minute session, we will be booking sessions at intervals that will adequately space appointment times. This will allow for less foot traffic in our office as well as provide necessary time to clean and sanitize dressing rooms, the photo studio and bathrooms.
